- Eliane de Oliveira (Brazil)
- César Rodríguez (Costa Rica)
- Andreas Rummel (Germany)
- Maja Rupnik (Slovenia)
- Aimee Shen (USA)
- Wiep Klaas Smits (Netherlands)
- Robert Britton (USA)

Local Organizing Committee:

- Candela Thomas
- Morvan Claire
- Péchiné Séverine
- Peltier Johann

The ClostPath conferences, which began in 1999, have been a leading venue to bring together top scientists and clinicians studying the molecular biology of Clostridia and their role in health and disease.

The scientific program will include lectures by internationally recognized leaders in clostridial research and clinical practice. In addition to state-of-the-art invited talks on the most recent and exciting discoveries in the field, shorter oral contributions will be selected from submitted abstracts. Poster presentations will give attendees the opportunity to discuss their ongoing work with a broad audience in line with the goal to bring together basic science with clinical and translational research issues.

In addition to scientific excellence, the committee has a longstanding commitment to ensuring a diverse panel of speakers in terms of gender, geography, race/ethnicity, and scientific interest. Attendees are encouraged to submit abstracts on their most recent or as yet unpublished work.

A major objective of ClostPath is to provide a forum for trainees (students and postdoctoral fellows) to share their work, discuss their data with leading scientists, and train and inspire the next generation of clostridial researchers. Preceding the main conference, a Pre-ClostPath **Meeting for Young Scientists** but open to all, will allow trainees to network with their peers, senior colleagues and company delegates on a convivial form. Junior Scientists are planned to be spotlighted in all the scientific sessions.

The scientific program will include subjects on: One Health, Treatments / Healthcare, Microbiome, Microbe - Microbe Interactions, Physiology, Spores, Bacterial surface, Gene Regulation, Virulence Factors, Toxins, Host Response to Infection.

Institut Pasteur Conference Center remains at your disposal for all information on the Conference and related exhibitions:

LOCAL SECRETARIAT

Institut Pasteur Conference Center
28 rue du Docteur Roux
75724 Paris Cedex 15 - France
